World Bank approves

\$500 million loan to support India's informal working class amid pandemic

PRESS TRUST OF INDIA New Delhi, June 30

WORLD BANK ON Wednesday said it has approved a \$500 million (about ₹3,717.28 crore) loan programme to support India's informal working class to overcome the current pandemic distress.

The loan will create greater flexibility for states to cope with the ongoing pandemic, future climate and disaster shocks, World Bank said in a statement.

Of the \$500 million commitment, \$112.50 million will be financed by its concessionary lending arm International Development Association and \$387.50 million will be a loan from International Bank for Reconstruction and Development (IBRD).

The loan has a maturity period of 18.5 years including a grace period of five years.

World Bank said its total funding towards strengthening India's social protection programmes to help the poor and vulnerable households since the start of the pandemic stands at \$1.65 billion (about ₹12,264.54 crore).

The first two operations approved last year provided immediate emergency relief cash transfers to about 320 million individual bank accounts identified through pre-existing national social protection schemes and additional food rations for about 800 million (80 crore) individuals, World Bank said.

States can now access flexible funding from disaster response funds to design and implement appropriate social protection responses.

Umesh Revankar, vice

chairman & MD, Shriram Transport Finance told FE that he does not anticipate any major negative impact in terms of repayments, as majority of the company's borrowers are owner-driver customers, rather than the fleet owners.

"I don't see any major impact because of the lockdown and its impact on the truckers. Even if it

is there, it would be minimal, these owner-drivers were plying the trucks ferrying essentials and participating in e-commerce activities," he said.

He said from July onwards, as states are opening up, situation will further improve for the truckers. As far as the collection efficiencies are concerned, there could be 5% to 10% drop in June, he added.
